LIFTING EQUIPMENT

Turning device

For rotating and turning of heavy or bulky loads

Notes & Standards
DIN EN 13155, directive 2006/42/EG, DIN EN ISO 12100, DGUV rule 100-500, eyelets for crane hooks according to DIN 15401
Application range: Load change up to 20,000,
Temperature -20° to +80° C
Inspection before initial commissioning according to DGUV rule 100 - 500 by a competent inspector of the client.
Warranty 12 months after delivery (wearing parts excluded).
Delivery with documentation (type plate with CE marking and test book - EC declaration of conformity, test certificates, operating instructions and release drawing).

Benefits
The BETA turning device enables high turning speeds and rotation angles up to 360°.
The components are gently fixed and very precisely positioned. Only one employee operates the truss quickly and safely.

Equipment
- Electrically driven belt reels
- Endless belt in desired length (standard 8.0 m)
- Gripping width continuously electrical adjustable
- Crane eye electrical movable for load balancing
- One or two crane operation possible
- Control via radio remote control
- Power supply from crane or from the ground (CEE plug, 5-pin 3P+N+P, 16 A, IP 44, 400 V 50 Hz)

Customized products
Deviating from our standard models we also produce according to your special requirements.
